Management Recommendation & Action Plan

- 1. Focus on Public Insurance:** Since Public insurance represents the largest share of total bills (40.59%), we must maintain strong partnerships and streamline its processing.
- 2. Support High-Revenue Departments:** Prioritize resources for Emergency and Outpatient as they bring the highest financial returns and patient volume.
- 3. Reduce Waiting Times:** Work on minimizing patient waiting times (currently averaging around 90 minutes) to push overall satisfaction scores even higher than 3.88.
